

City & Guilds 2391-52 Level 3 Inspection, Testing & Certification Of Electrical Installations (Part-Time)

This course is aimed at active electricians who wish to gain qualifications in inspection and testing. This qualification is for qualified electricians with testing experience. For newly qualified electricians, an Inspection and Testing course is recommended Basic 2392.

This is a combined inspection and testing course (2391-52), this includes both:

- Initial Inspection and Verification of Electrical Systems (2391-50)
- Periodic Inspection, Testing and Certification of Electrical Systems (2391-01)

If you are over 19 and currently living in Wales you may be eligible for a FREE Welsh Government Personal Learning Accounts (PLA) funded course. We can discuss funding with you after research.

Entry Requirements

Qualified electricians working in the electrotechnical industry with extensive testing experience have recently completed their 18th Edition qualification, ie City & Guilds 2382-18.

Assessment

The course includes classroom training and exercises with a complete open book multiple choice online assessment. All candidates must complete a full 2 hours of examination in order to gain this qualification. There is also a practical assessment which includes initial assessment and periodic examination and testing.
