CompTIA CySA+ (Part-Time)

CompTIA Cybersecurity Analyst (CySA+) is a mid-level, vendor-neutral certification that focuses on proactive defense through threat detection and response.

It validates that you can:

- Use behavioural analytics & threat intelligence
- Detect and respond to threats in real time
- Manage vulnerability assessments
- Monitor and secure systems actively

The course is DoD 8570/8140 approved, and is a good next step after Security+ for those pursuing a career in defensive security or SOC operations.

Entry Requirements

Delegates must have access to a computer, and CySA+ is aimed at professionals with 3 to 4 years of security or IT experience.

Career Prospects

Successful delegates gain increased employment opportunities in the IT and Cybersecurity sectors, as well as access to higher salaries and senior roles.

Course Modules

This course covers:

- Security Operations
- Vulnerability Management
- Incident Response & Management
- Reporting & Communication
- Governance, Risk, and Compliance (GRC)

Assessment

Assessed via Exam
