General Visual Line of Sight Certificate (GVC) (Part-Time)

This GVC Course forms the first step towards a CAA Operational Authorisation (until 31st December 2020 this was known as a PfCO). This course covers all unmanned aircraft from 0-25 kg, regardless of aircraft type, so it covers both fixed-wing and rotary-wing aircraft.

Entry Requirements

None

Career Prospects

Successful delegates can attempt the Practical Flight Test. The test is designed to show that delegates have understood, and can apply, the principles from the course. It is a great opportunity to test delegates' drone operating procedures in a safe environment. Full details of the assessment, with guidance on how to prepare will be provided during the course.

Successful delegates can also progress onto the ECITB Foundation Unmanned Aircraft Systems (UAS) Training Course.

Course Modules

This course covers:
– UAS General Knowledge and Flight Performance
– Meteorology
– Human Factors and Airmanship
– Open Category UAS Operating Procedures
– Airspace Operating Principles
– Air Law and Responsibilities
– Navigation and Charts
– Specific Category UAS Operating Procedures

Assessment

Closed-book multiple-choice exam per module.
