

IEMA Certified Internal EMS Auditor (Part-Time)

This course aims to equip delegates with a working understanding of the Environmental Management System (EMS) audit process and how it should be applied to their own organisation's EMS.

This course will develop the skills needed to assess and report on the conformance and effective implementation of processes, and to contribute to the continual improvement of an environmental management system based on the ISO 14001:2015 standard.

Entry Requirements

None

Career Prospects

Successful delegates gain the opportunity to progress on to the IEMA Foundation Certificate in Environmental Management course.
