

IMI Level 3 Award in Electric/Hybrid Vehicle System Repair and Replacement (Part-Time)

This course is designed for individuals who may encounter electric/hybrid vehicles within a routine maintenance situation. This course also contains the knowledge and skills required to work safely around a vehicle that may have had damage to its high energy/electrical system.

This course covers the following topics:

- Working safely around electric/hybrid vehicles
- Using information to carry out the task
- Carrying out repairs on high energy electrical systems
- Recording information and making suitable recommendations

Entry Requirements

Applicants must possess certification of the Level 2 Award in Electric/Hybrid Vehicle Routine Maintenance Activities EV2.2 qualification and provide a copy of their certificate.

Furthermore, possess relevant vehicle system maintenance, repair qualification, knowledge and experience at Level 3 and be an active technician currently working in light vehicle maintenance and repair sector. A short interview maybe required to clarify entry requirements if any of the above is not held.

Career Prospects

Progression to Level 4 Hybrid and electric vehicle training.
