

Introduction to Welding Skills (Part-Time: Evening)

This course provides the opportunity to upskill in areas of welding.

The course is suitable for those upskilling in welding during current employment, those wishing to pursue a new career or wishing to gain qualifications in Welding or for keen hobbyists.

This introduction to welding course covers 3 welding processes – MMA, MIG and TIG. You will gain hands-on experience and practical skills that will prepare you for a successful career in this exciting field. You will have access to state-of-the-art facilities and work alongside our experienced staff who will guide you in honing your skills and pursuing your passions.

By studying welding at NPTC group, you will be part of a community of problem solvers and future innovators who are dedicated to making a positive impact on society.

The course is also utilised for individuals who want the opportunity to upskill but have other commitments which mean that they cannot join on to a full time course. This programme can in this case give the flexibility required as it occurs 1 evening weekly over 16 weeks.

Assessment

Completed welded joints and an oral questioning examination

Additional Costs

There is a £140 Materials fee. Workshop PPE such as: Fire retardant overalls, safety boots, glasses etc.
