IOSH Managing Occupational Health and Wellbeing (Part-Time)

This course provides practical advice to create a healthy and productive workplace. It equips managers with the tools to support employees experiencing physical or mental health issues.

The qualification aims to improve understanding of your responsibilities for health and wellbeing, and why it makes good business sense, enable you to manage changes in people's health and assess fitness for work, explain what to consider in a health needs assessment, and help you support people returning to work after illness.

Entry Requirements

None

Career Prospects

Successful delegates gain the opportunity to advance onto the IOSH Managing Safely or NEBOSH General Certificate in Occupational Health & Safety, and increased employment opportunities in supervisory and management roles.

Course Modules

This course covers:
– A healthy company and why it makes good business sense to manage workplace health and wellbeing
– Health risk management
– Fitness for work and the importance of managing the fluctuations in people's health status
– How the promotion of a wellbeing programme can influence and add value to an organisation.

Assessment

Assessed via an exam
