

Level 2 Award in Understanding Domestic Retrofit (Part-Time)

This qualification is designed to equip learners with the knowledge to understand the basic principles of domestic retrofit. It provides learners with an overview of information used, the health and safety considerations, the resources used, the risks of damage, contractual requirements and the processes involved as part of retrofit activities.

Entry Requirements

There are no formal entry requirements, however, experience in the construction industry would be a benefit.

Career Prospects

Successful delegates will gain increased employment opportunities in the retrofit sector of the construction industry, as well as the opportunity to progress onto the Level 2 or 3 NVQ Diploma in Insulation and Building Treatments.

Course Modules

The course covers:

1. Introduction to Domestic Retrofit
2. Domestic Retrofit Information
3. Health and Safety
4. Domestic Retrofit Materials
5. Protecting The Work Area
6. Retrofit Contract Information
7. Common Domestic Retrofit Installation Processes

Assessment

This qualification is assessed via a multiple-choice examination.
