Level 3 NVQ Diploma in Occupational Work Supervision (Construction) (Part-Time)

This qualification is designed for individuals who carry out supervisory activities within a specific construction trade. It focuses on coordinating work operations, maintaining health and safety standards, and ensuring tasks are completed effectively and to industry requirements.

The qualification includes a core set of mandatory units alongside optional units, allowing flexibility to reflect your job role and responsibilities.

Entry Requirements

Delegates must work in a role that allows them to demonstrate competence and knowledge in a real workplace environment.

Career Prospects

Successful delegates gain increased employment opportunities in construction supervisory and team leader roles.

Course Modules

This course covers:
Mandatory Units:
– Confirming Work Activities and Resources for an Occupational Work Area in the Workplace
– Developing and Maintaining Good Occupational Working Relationships in the Workplace
– Confirming the Occupational Method of Work in the Workplace
– Implementing and maintaining health, safety and welfare in the workplace
– Coordinating and organising work operations in the workplace

Optional Units (Minimum of 2):
– Allocating and monitoring the use of plant, machinery, equipment or vehicles in the workplace
– Monitoring progress of work against schedules in the workplace

– Confirming work meets contractual, industry and manufacturers' standards in the workplace
– Implementing procedures to support the team performance in the workplace
– Co-ordinating and confirming the dimensional control requirements of the work in the workplace

Assessment

Assessed via observation of practical work, a knowledge-based assessment, and work-based evidence.
