

Maths GCSE (Part-Time)

The GCSE Mathematics course provides an opportunity for students wishing to improve their confidence and skills in numeracy and gain a qualification in GCSE Mathematics, which is a fundamental requirement for many careers.

Students have many reasons for taking this course, including furthering their education, employment opportunities or seeking to support children in school.

The intermediate tier delivered at the college allows students to achieve the B grade GCSE, which is now a requirement for many teaching and nursing degrees. The main topics covered in this course are:

- Number
- Algebra and Graphs
- Shape, Space, and Trigonometry
- Handling and presenting Data
- Probability

The course is a one year course that is delivered using a variety of different teaching techniques.

Entry Requirements

None

Career Prospects

Career Prospects: A C grade in GCSE maths is required for many jobs. An increasing number of universities and courses require a B grade as part of their entry requirements.

Assessment

Examinations

There are two examinations which take place in May and June. Both papers make up 50% of the final mark.
