NPORS N202 Excavator 360° (Part-Time)

The NPORS N202 Excavator 360° course provides comprehensive training on the safe and efficient operation of 360-degree excavators. The course covers both theoretical knowledge and practical skills, including pre-operational checks, machine controls, safe operation, digging techniques, and post-operational procedures.

This course is designed for individuals with limited or no experience in operating a 360-degree excavator. It is suitable for operators of all abilities, including those who have previously received no formal training.

Entry Requirements

Participants must have a good understanding of spoken and written English. For those seeking the NPORS CSCS Card, passing the CITB Health, Safety and Environment Test within the last two years is required.

Career Prospects

Upon successful completion, participants can progress to more advanced NPORS certifications or pursue relevant NVQ qualifications to upgrade their NPORS Red Trained Operators Card to a Blue Competent Operators Card.

Course Modules

This course covers:
– Pre-operational checks
– Use of the operator’s handbook and other information sources
– Machine controls and functions
– Safe operation of the machine
– Digging techniques and site awareness
– Operational procedures in various conditions
– Health and safety
– Site conditions and risk management
– Load handling and distribution
– Parking and securing
– Post-operational procedures

Assessment

Participants are assessed through a combination of theory (open questions and multiple choice) and practical tests.
