NPORS N205 Rear Tipping Dumper (Part-Time)

The NPORS N205 Rear Tipping Dumper course provides comprehensive training on the safe and efficient operation of rear tipping dumpers. The course covers both theoretical knowledge and practical skills, including pre-operational checks, machine controls, safe operation, loading and unloading procedures, and post-operational procedures.

This course is designed for individuals with limited or no experience in operating a rear tipping dumper. It is suitable for operators of all abilities, including those who have previously received no formal training.

Entry Requirements

Participants must have a good understanding of spoken and written English. For those seeking the NPORS CSCS Card, passing the CITB Health, Safety and Environment Test within the last two years is required.

Career Prospects

Upon successful completion, participants can progress to more advanced NPORS certifications or pursue relevant NVQ qualifications to upgrade their NPORS Red Trained Operators Card to a Blue Competent Operators Card.

Course Modules

This course covers:
– Industry overview and operator responsibilities
– Manufacturer’s handbook and relevant legislation
– Major components and their functions
– Pre-operational checks and safety procedures
– Safe operation techniques
– Environmental considerations
– Loading and unloading procedures
– End of shift and shutdown procedures

Assessment

Participants are assessed through a combination of theory (open questions and multiple choice) and practical tests.
