

NPORS S029 Construction Site Safety Supervisor (SSSTS) (Part-Time)

The NPORS S029 Construction Site Safety Supervisor (SSSTS) course provides essential training for those who are about to take on supervisory responsibilities in the construction industry. The course covers health and safety regulations, risk assessments, site safety management, and effective communication skills.

Entry Requirements

Participants must have a good understanding of spoken and written English. For those seeking the NPORS CSCS Card, passing the CITB Health, Safety and Environment Test within the last two years is required.

Career Prospects

Upon successful completion, participants can progress to more advanced NPORS certifications or pursue relevant NVQ qualifications to upgrade their NPORS Red Trained Operators Card to a Blue Competent Operators Card.

Course Modules

This course covers:

- Health and safety regulations
- Risk assessments and method statements
- Site safety management
- Effective communication skills
- Environmental considerations
- End of shift and shutdown procedures

Assessment

Participants are assessed through a combination of theory (open questions and multiple choice) and practical tests.
