

# PRINCE2 Practitioner 7th Edition & Official Exam (Part-Time)

The Practitioner is the second of the two PRINCE2® examinations candidates have to pass to become a PRINCE2® Practitioner. This PRINCE2® examination is aimed at measuring whether a candidate would be able to apply PRINCE2® to the running and managing of a project within an environment supporting PRINCE2®. They need to exhibit the competence required for the Foundation qualification and show that they can apply and tune PRINCE2® to address the needs and problems of a specific project scenario.

Candidates must be able to:

- Produce detailed explanations of all principles, themes and processes and worked examples of all PRINCE2® products as they might be applied to address the particular circumstances of a given project scenario.
- Show they understand the relationships between principles, themes and processes and PRINCE2® products and can apply this understanding
- Demonstrate their ability to tune PRINCE2® to different project circumstances.

The PRINCE2® course on this page is offered by Training Bytesize, an Accredited Training Organisation of AXELOS Limited. PRINCE2® is a (registered) trademark of Axelos Limited. All rights reserved.

## Entry Requirements

None
